TESTIMONIAL – MATOTO TECHNOLOGIES

This serves to confirm that Technotrain (Pty) Ltd has outsourced its IT services to Matoto Technologies. The services include, amongst others:

- Network Support
- Desktop Support
- Data Backup
- Security
- Serve Hosting
- Provision of Hardware
- Managing relationship with Internet Provider

With Matoto as a provider, anecdotal evidence indicates that the system up-time is closer to 100 percent.

As a client, we are extremely satisfied with Matoto's services and would recommend them to any potential client.

Please feel free to contact the undersigned for confirmation of the contents of this letter.
